Click on the title of a thread to view that thread and its replies.

You will be taken to a screen like the one below. See the images below for instructions on how to reply, navigate to the next post and view the replies that you choose.

This is the top of the Thread Detail page.

After clicking the check box in front of one or more threads, you can collect or mark messages (under Message Actions).

This box contains all the replies that have been posted in this thread. To get to a reply, click on the underlined subject or click one of the arrows next to the thread name. (See number 3)
When you choose to reply or respond to a thread, the screen will be almost identical to the “new thread” screen. Type your subject, message, and click “Submit.”
